As you extend the telescoping height stick, make sure each of the smaller top sections is locked into place with the snap button. You may need to twist the stick slightly back and forth so the spring-loaded button will find the hole and snap in. **FAILURE TO DO THIS MAY RESULT IN INACCURATE MEASUREMENT OF LOAD HEIGHT.**

YES-- GOOD!

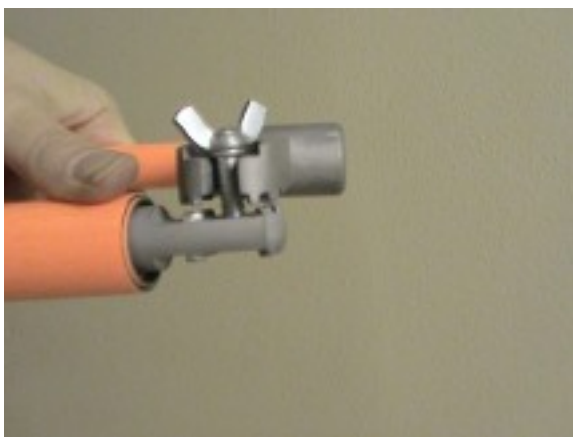

NO-- BAD!

STORAGE: depress buttons and slide each of the smaller tubes into the larger tubes. **FULLY UNSCREW WING NUT THAT HOLDS TOP HORIZONTAL BAR OF HEIGHT STICK BEFORE FOLDING BACK DOWN FOR STORAGE. FAILURE TO DO THIS CAN RESULT IN THE TEETH CATCHING AND BREAKING ON ALUMINUM HARDWARE.**

YES-- GOOD!

NO-- BAD!
